

## Description

This board adapts between a SO-8 component and standard 0.1" pitch holes which can accommodate many standard connectors. Additionally, the pad under the IC has been extended to allow for easy hand soldering.

## Technical Info

### Component

Component Footprint : SO-8(EP). The footprint will accept devices up to 6.6mm wide (measured across the legs of the IC).

### Connector

Hole Pitch : 2.54mm (0.1")

### PCB

PCB Thickness : nominal 1.6mm (63 mils)

PCB Material : FR4

PCB Finish : ENIG (Gold Surface)
